Information Technology

To whom it may concern,

I have come to know through reliable sources that there is a vacancy under your kind consideration; therefore, I am offering my application for the vacant **IT.**

I studied Computer Science - Software Engineering in Karwan University (KU) and I am conversant with the work of programming as such I have designed website project for companies and I have a good background in JavaScript as JavaScript makes HTML pages more dynamic and interactive & I have deep understanding of HTML5 - all new features, CSS3 all layouts, **Bootstrap classes, React library,Node.js, Knowledge CMS** and wrote a HTML5 book with example which I link to W3schools website & **I have deep knowledge & practical experience of Java web framework (SPRING), Spring security, Websocket, Rest API, Othe2 & I have amassed over 5 year of significant, progressive experience in the relevant field.**

Projects Developed:

I have developed Holy Quran, Library Management System, Pashto to English and English to Pashto Speech Dictionary, Media player and Puzzle game in Java Programming Language **(JavaFx)** for desktop which run in windows, Linux, Mac operating systems & developed a Financial Management Software in JavaScript & more than five web templets. My mobile app knowledge is also better which mostly working in android studio.

It's therefore requested that I kindly be given an opportunity for the post, I assure you that I will discharge my duties to the best of my ability into the entire satisfaction of my supervisor.
I have a proactive management style with highly developed communication skills. I am able to work under pressure and meets deadlines.

I would strongly appreciate the opportunity for an interview where I can express myself in further details.

Sincerely yours,

AHMAD JAWED GHORZANG
